

# Weddings

*with you every step of the day...*

I cover Northern Ireland, R.O.I and worldwide on request. I keep three words in the back of my head when photographing your wedding – timeless, elegant & storytelling.

From your pre wedding session I always get a good character judgement & know what makes you tick. Storyboards are also a great way of knowing your style...a collection of photos you love, possibly made up from cuttings from magazines etc. I did this for my wedding day and it was the best idea ever. It helped my photographer focus on the photographs I wanted to cherish in my album.

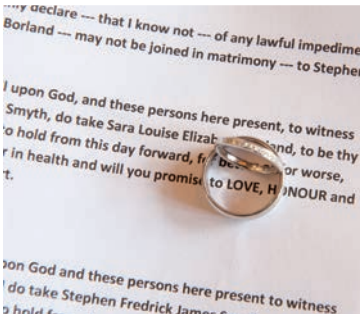

Coverage with all packages begins with bridal preparations right through to before you go into your reception room. There is no such thing as a one-size fits all wedding...budgets, locations & expectations are as unique as the bride & groom themselves. I work with you in creating a collection of images from your special day which you can pass down from generation to generation. Combining both traditional & reportage styles of photography, your wedding photographs will be a lasting reminder of your special day.

I hope this brochure gives you an insight into me and my work. Please contact me if you wish to view my sample albums and to discuss your wedding. I'd love to hear from you. Package prices on request. All weddings include a complimentary pre wedding session.
